## Good Move! Chess for Life

You can download a 10 day trial of Good Move! v3 from [www.knightsandbytes.com.au](http://www.knightsandbytes.com.au) website in less than a minute depending on your Internet Provider – both the Macintosh or Windows version are about 30Mb.

With the Macintosh version, it will decompress when you download it and you simply need to put the entire folder somewhere on your hard disk – possibly in the Applications folder. You should open the folder and make an alias of the GoodMove application – simply select the GoodMove icon by clicking it once, go to the File menu at the top of the screen and choose *Make Alias* – a GoodMove alias will appear in the folder and you can drag this to your desktop and can use it in future to start GoodMove.

The Windows version has a simple install program that will allow you to install GoodMove in your Program Files directory and then place a shortcut on your desktop.

To start GoodMove, either use the shortcut or open the folder and double click the **GoodMove** icon – you will be shown a screen asking you to insert the installation code; so type:

### 10daytrial

**and then click the Continue button – don't press Return.**

And away you go. We hope you enjoy it and find many interesting ideas and tricks.

If you plan to keep using it, please send an email to [alang@knightsandbytes.com.au](mailto:alang@knightsandbytes.com.au) and pay \$20 using paypal to [alang@knightsandbytes.com.au](mailto:alang@knightsandbytes.com.au) - this includes GST.

You can also pay directly to our account: **BSB 610-101** and the Acc No is **000471982**

And we will send you an alternate installation code to allow you to use Good Move forever.

May all your moves be good ones!
